

# Notice for the update of the Avira SAVAPI license

(expiry date of the license: 31.12.2009)

## Instruction

Updating the Avira SAVAPI license, it is necessary to replace license files until 31 December 2009 within your iQ.Suite installation. Thus, it is guaranteed that the Avira Scan Engine will continue working with the latest pattern version also after the turn of the year 2009/2010. Therefore, the update is strongly recommended.

The following files are affected:

1. SAVAPI 2 in iQ.Suite for LND on Linux and SUN Solaris before V12.2.0 uses the file "hbedv.key"
2. SAVAPI 3 in iQ.Suite for LND from V12.2.0 and iQ.Suite for MSX/SMTP V8.0 uses the file "savapi.key", which has the same name on each operating system

In the following section, you will find the standard path of the different e-mail systems and combination of operating systems. The variable %EXECDIR% means the path to the data directory in your iQ.Suite installation, %ProgramFiles% stands for the path of your Windows data directory.

### **iQ.Suite for LND on Linux and SUN Solaris before version 12.2.0**

#### **IBM Lotus Domino for Linux and SUN Solaris:**

/usr/lib/AntiVir/

**Note:** Please pay attention to the fact that during an FTP transfer the file "hbedv.key" is transferred to the system in binary mode.

### **iQ.Suite for LND from version 12.2.0 as well as iQ.Suite for MSX/SMTP from version 8.0.0 on all operating systems**

#### **Microsoft Exchange / Microsoft SMTP:**

%ProgramFiles%\GROUP Technologies\iQ.Suite\Bin\Savapi

#### **IBM Lotus Domino for Windows:**

%EXECDIR%\Savapi

#### **IBM Lotus Domino for Linux and SUN Solaris:**

%EXECDIR%\Savapi

**Note:** Please pay attention to the fact that during an FTP transfer the file "savapi.key" is transferred to the system in binary mode.

## About GROUP Technologies

*GROUP Technologies is the Email, Archiving and Administration unit of GROUP Business Software AG*

Organizational operations depend on highly-efficient modes of communication. Communication affects – more or less – all business processes. Email is heavily used for communication, in collaboration efforts and as a workflow engine. Email is a process which affects all aspects of internal and external information exchange. Following these facts, email is the number one business critical application and is burdened with internal and external risks, regulations, policies and standards.

GROUP Technologies focuses on delivering a process-controlled, centralized and easy-to-maintain email management solution for the Lotus Domino and the Microsoft Exchange markets.

### *GROUP Technologies Value Proposition*

**Expertise:** The company is a trusted advisor to its customers in the areas of email security, compliance or IT optimization and is capable of solving any business challenge in these areas through its centralized and rules-based email process management approach.

**Unified console/single point of administration:** Multi-level anti-virus and anti-spam, automated de-/encryption, rule-enforcement, regulatory enforcement and real time archiving through a single point of administration within the entire organization.

**Simplicity:** The company's email solution features easy-to-use interfaces and is efficient in solving email challenges. As a server-based solution, client/user interaction is limited and reduced to the absolute necessary minimum input by the email user. The organization-wide implementation for all users is done on the server and is easy to administer through our unified console.

**Email as a business process:** Company defined processes control email usage ensuring compliance with internal policies as well as regulatory requirements. Simple configuration tools allow the system to easily be adapted to satisfy the demands of growing companies and new regulations that have yet to be envisioned.

### *GROUP Facts*

**Customers:** GROUP's clients include many well-known companies such as Deutsche Bank, Ernst & Young, Honda, Heineken, Allianz and Miele. More than three million users and 3,000 companies worldwide protect and organize their systems with GROUP Technologies products.
